

# Families SEND Support Team

## Barnardos 4<sup>th</sup> Edition

### Cygnets Autism Support Programme

The **Cygnets Programme** is available for families of children and young people aged **5-18 with a diagnosis of Autism**.

The **7 week** programme will help build your **understanding of Autism** and includes information around **senses, social interaction, communication and behaviour**.

We will help you to develop a practical toolkit for supporting your child. A supportive group environment will help you to connect other parents with shared experiences and build your support network.

**Virtual** sessions are available.

**To refer simply scan the QR code or follow the link to complete a short referral form.**
